More Floods in our Region

With the recent storms that have spread throughout South East Queensland and Northern New South Wales has caused a fair amount of damage yet again to homes, business's and our Horticultural Industry.

Dozens of nut and fruit producers across the region are now facing massive clean-up bills as a result of uprooted trees and snapped limbs, torn netting and severe erosion from water rushing through their properties.

The AMS alone estimates the 2009 NSW macadamia crop will be down by as much as 20 per cent as a result of the floods.

“The flood damage, combined with the rain that led up to it, has wiped out a third of the value of the crop – which equates to \$30 million plus”.

Our Pure Macadamia Nut spread is made from 100% dry roasted macadamia nuts and blended to perfection. This delicious spread is all natural with plenty of nutritional benefits.

It is a great tasting, natural alternative to traditional ‘peanut butter’ with all the benefits of the Australian Macadamia Nut. Macadamia nuts contain the most mono-unsaturated (the good fat) of any nut or legume and are cholesterol free.

They are also a great source of protein, calcium, potassium and dietary fibre.
